

# CXP-ARK

The AK models are known for their rugged profile design and high durability. Their fame also makes them the second popular model, just right after the AR series. However, the design and setting on current AKs are still more traditional, which makes ICS, which emphasizes human factors engineering and player experience, not that satisfied.

Therefore, based on the traditional design, ICS incorporates many modern and novel designs, and comes up with a brand new CXP-ARK, which is featured an ERGO emphasized M-LOK/1913 handguard and pistol grip, more functional and versatile stock, and equipped with trendy T-Mag windowed magazine.

New Designed  
Light-weight Polymer  
M-LOK Handguard

CXP-ARK is equipped with newly designed 8.5-inch industrial-grade nylon fiber M-LOK tactical handguard, which not only has solid and trendy profile that improves the overall product quality, the lightweight and sturdy design is more conducive to activities in games.

New Designed  
Steel 14mm CCW  
Flash Hider

The new designed CNC milling made universal 14mm CCW thread steel flash hider, gives the CXP-ARK a more modernize profile than the traditional AK.

### New Ergo-Tech Textured Grip

Made of industrial grade Nylon Fiber, the ARK Ergo-Tech Tactical Grip is designed with unique ergonomics and anti-slip texture, which not only fits the hand shape, comfortable and sturdy, but also increases the grip friction. Even if it is used for a long time, it is not easy to be tired.

### Short Stroke Trigger (SSS Version Only)

The Short Stroke Trigger that works with the Pre-cocking feature of the SSS E-trigger, can effectively reduce the trigger traveling distance, increase the rate of fire, and greatly enhance the shooting responsiveness and accuracy.

**CXP-ARK**

### Smart Trigger (SSS Version Only)

The newly developed Smart Trigger that is integrated with the original SSS E-trigger system, can intelligently detect how the trigger has been pulled. In Full-Auto mode, you'll fire continuously in full-auto if the trigger is pressed continuously, and it will fire 3 round burst if you give it a single tap, which is more intuitive and convenient.

### 8mm Bushing Gearbox

ARK comes with an 8mm bushing third-generation gearbox, and MIM process pinion and bevel gears. Internal parts such as pistons, cylinders, gears, and motor are all available in commercially available specifications.

T-Dean Plug(Standard for SSS, MOSFET)

### QD Spring Guide

The iconic QD Spring Guide design provides players a more rapid way for adjustment. You only need an Allen Key to change the spring, adjust the muzzle velocity of your replica to meet different requirements per field.

### Aluminum Upper Receiver Rail

The new lift-up upper receiver cover comes with an AL6061 M1913 rail, and a locking point design, which is stable, and easier for customizing with add-on accessories.

### Performance Grade Reinforced Internals

(Standard for SSS, optional for MOSFET)

The SSS version CXP-ARK is equipped with AL6061 Metal Air Nozzle, Cylinder and Piston Heads, Full Steel Teeth Piston, metal H-up, and MIIM Pinion and Bevel gears as the factory default setting, which provides you a performance grade reinforced internal out of the box without further upgrades.

6061 Aluminum Cylinder Head  
(MX-001)

6061 Aluminum Piston Head  
(MX-002)

Full Steel Teeth Piston  
(MX-009)

TM Spec. Compatible  
Metal H-UP

(Standard for SSS, MOSFET)

6061 Aluminum Metal  
Air Nozzle  
(MK-92)

(Standard for SSS, purchased  
separately for MOSFET)

MIIM (Metal Injection  
Molding) Pinion and  
Bevel Gears

(Standard for SSS, MOSFET)

## MODEL OPTION

**SELF-DIAGNOSTIC  
SHOOTING  
SYSTEM**

### SPECIFICATIONS

Total Length	638-884mm
Inner Barrel Length	375mm
Weight	3365g
Muzzle Velocity	120m/s (394FPS)
Magazine Capacity	540 rounds max.
Receiver Material	Metal
Motor	EVO I 35000

Gun specs will be set differently according to the required settings from each market, the specifications listed above are for general use only.
